FOR COVERNOR JOHN W. DANIEL, OF LYNCHBURG. FOR LIEUTENANT GOVERNOR, JAMES BARBOUR, OF CULPEPER. FOR ATTORNEY GENERAL, P. W. McKINNEY, OF FARMVILLE. FOR THE HOUSE OF DELEGATES JUDGE CHAPLES E. STUART.

SATURDAY EVENING, OCTOBER 29

The late President said, "For the protection of incumbents against intrigue and wrong, I shall, at the proper time, ask Corgress to fix the tenure of minor offices." The living President said. "I intend to profit by the experiare and wis tom of my predecessor," or words to that effect, but he allows a false charge of defalcation to cloak the real one of anti-Mahoneism, and offers it as an excise for removing the honest and true republican postmaster at Lyachburg and giving his place to a repudiating democrat, and does so, too, for no other parpess than to sceare Mahone's vote in the Senate. Such action is as silly as it is wicked, for Mahone will continue to vote with the republicans no matter how they may soul

General Mahone promised his political friends thirty thousand majority last November, he promised Mr. Gorham the secretaryship of the S nate, he premised Mr. Riddleberger the place of sergeant-al-arms of the Senate, he promised comerous other persons positions under these officers of the Senate, and more reo ady he promised Mr. Statham the postmastership at Lyachburg. How he has fulfiled these promises is known to all. He is a pronising man, at least with regard to federal patracaze, but, with the exception of the country pistoffices and storekeeperships in the intercal revesus service, his premises amount to nothing He has promised Colonel Compron that he shall be Governor of Virginia, but the indicarions are that this premise also will not be

But it is no less incorrect in defeat, it most of its statements having any reference to success of Mahene and repudiation in Virpeople have any rights that their fellow citizens of the North should respect, and, consequently, sees no harm in the fact that members of the flowers placed on his dask to-day.

President therein have produced great and favorable Arthur said he intended 'to carry out the policy changes, and that large democratis gains may through foul bargains and conditions, and of my lamented predecessor." And yet the President removes efficient officers in Virginia, and what's more, good and true republicans and men who are crippled Union soldiers, for no other reason than to make place for repudiating scalawag democrats.

It is not unreasonable for reasonable people to suppose that if anything else were required to disgust the people of the country with the present administration, the desideratum would Do supplied by the fact that it demends the support of its party in the Senate in its attempt to oust a wounded Union soldier, who is a true republican and a debt payer, for a postmastership in Virginis, for the purpose of giving his place to a scalawag democrat who is a repudiator.

Why the republican members of the Senate should prolong the session of that body for three days, and necessitate night sessions for no other resson than to deprive a true and consistent republican of a little office in Virginie, so as to make place for a democratic Mahoneite, is what nobody but a republican Senator and a Mahonite can tell.

In some of the counties of the State the Mahoneites have nominated for the Legislature republicans who pronounce themselves 'last dollar debt-payers," and yet there are men still professing to be democrats whose sole assignable reason for supporting the Mahoneites is their desire to have the debt scaled.

FROM WASHINGTON. Special Correspondence of the Alexa. Gazette

WASHINGTON, D. C., Oct., 29, 1881. A caucus of the republic in Senators was held this morning to devise, if possible, some plan by which to relieve themselves of the embarr. saing situation in which their own silliness in attempting to earry out their bargain with Mahope had placed them. Not a sufficient number of members were present to constitute a quorum, but these who were present appointed a committee to wait upon the President and request him to withdraw the Stetham pomication or allow it to lie over till the regular session. Who the committee were has not yet transpired, but as Messis. Ferry and Jones were seen soon after on their way to the 'Gray House' it is supposed they were. General Mahene : ecompanied Mr. Ferry, but as it is not get koown that he attends the republican caucus meetings he could hardly have been one of the committee. It is reported that finding the republicats deserting him, and that it would be impossible for him to make them stick sny longer he made the best of a bad bargain and in the matter, expressed to him his concurrecee in the region of the carcus

o'c'ock this morning. After midnight nothing of any consequence was said or done, most of the members being in the clock rooms sleeping or smoking. At three o'clock, the absence of a Glass, Jr., proposed the health of Mining Pan quorum being brought to the attention of the chairman, the republicans withdrew their op position to an acjournment and the few members who had not already gone to their homes were allowed to do so. This was a sad blow to General Mahone, but his opposition to it was powerless.

In the Sanata te-lay Mr. Hall, of Georgia, offered a resolution, protesting against appointments to office in the South being made for the purpose of off sing political elections there. The olj e of this was to have the discussion on the removal of a republican from the postoffice at Lyccubang to make place for a repudiating democrat, conducted in public, but the wherever they may be, and he could not republicans of jested, and the resolution had to on the soil of Maryland be investigated to be an

The Senate to-lay possed a resolution paying all the per dom employees of the Sanat for the estire menth of Ostober. Mrs. Willard, their chairman, introduced them, and, in her speech, that he was the son of a prescher, they did not deem it needs ary to urge upon him the adortion of the rules regarding the use of wines and predecessor. Mrs. Chapin said she represen ed South Carolina, and spoke for that State hope that he would do what he could to novance the temperance cause. The Secate went into executive session at an early hour to-day, and immediately resumed the consideration of the Statham nemination. At 3 c'clock all the indications point to an abandonment of Statham by the republicans and to a speedy sine die adjournment.

Should Stathsm's nomination be withdrawn or be allowed to lie over, the President can an point him, but not until after the Sth of Novem ber, on which day, by a curious coincidence, Wilson's term expires by law, and the Virginia election will be held; tut his appointment will only last until thirty days after the commencement of the regular session of Sonate next month This will not affect the democrats, their object being merely to show to the people of the country that they will not permit the Sensterial bargain with Mahone to be secomplished at the expense of a wounded Union soldier.

A well informed Virginia republican now in the city says that from all he could see and hear in Richmond and the other cities in his State that he has recently visited, he is induced to believe the centest now in progress in Virginia is very similar to that in 1860, and to the Vanco campaign in North Carolins, in both of which the white people, under the impression that their every interest was at stake, rose almost to a man and voted the conservative ticket. He thinks, therefore, that Daniel will be elected. Another republican, weil known shout Alexandria, says the republican party is split in two, and that Mahone has done it. The Plot Exposed.

| From the Richmond State | The following decaments, which have reached us by a trustworthy channel, will speak for themselves and require little commont from us. They will reveal the extraordisary act of a Usited States judge, whom the traditions of the bacch suppose to be a men free from the passions of the day, or the contemications of political strite, prostituting his judicial cruins to invite the President of the United States to attempt to control our State election by the anplication of the spoils system to Virginia. 18 this means the "Coshtion" is to be "coment and, mark the words, democrats of Virginia! there will be as a reward to the President for this prostitution of a high effice, even as Mr. Edmunds would say, in the "lottery of assat sination." "the gain of a republican in the United States Senate Senate." The President, as we learn, has promptly responded to this most unworthy appeal, and has made the appointment which is expected by Judge 12.ve to help in corrupting the houest will of our voters, but we much mistake the temper of our people if they fail to rebuke most signally the authors of the plot and all its secresories before and after the fact.

The Lynchburg Postmaster. The Senate, immediately after going into executive session yesterday resumed the contest which was begun the day before over the nomination of Clifford Stratham to be postmaster at Lycchburg. Mr. Hill, of Georgia, took the floor in exposition to his confirmation and spoke for two hours. The debate was con ieued ly Messis, Morgan, Morrill, Hoar, Sherman, and others at length, the discussion running substantially upon the political features of the ease and the importance attached to its probable bearings upon the result of the impending election in Virginia. The specohes were interspersed with a number of roll oille on motion to adjourn and other dilatory proceedings, and were also diversified by a spirited collegay betwood Senators Logio and Voerbees as to which clithe two had heretofore shown himself the better friend of the Union soldier. About 6 o'cleck in the evening a vote on motion to accoura disclosed the fact that no quorum was present, and a call of the Senate was ordered. All proceedings were then supended, while the Seargeant at Arms and his deputies were cogaged to husting up and ringing is accessit to Senators. Meanwhile a sumptuens repast was apread in the room of the Committee on Apprepriations, and the Senators who had remained at the Capito whiled sway as hour or two in the pleasures of the table and other social erjayments. Soon after to delock upward of fifty members were present in the Senate chamber, but when a vote was taken on another motion to adjourn it was found that less than a quarum responded to the call of their names, as a large number of herr wite paired with Senators still absent, At 10:30 e'clack business was still ruspended, with no indications of ary speedy brook of the
